

Systems With Intelligence Inc. Appoints Proven Utility Leader Brad Bowness as Chief Information Officer

Mississauga, ON, Canada, February 20, 2024 - Systems With Intelligence Inc., a global leader in providing intelligent, Touchless™ Monitoring Solutions for electric utility, industrial, and oil & gas applications, proudly announced the appointment of utility industry leader Brad Bowness as Chief Information Officer (CIO).

Brad brings more than 25 years of experience driving digital innovation and overseeing all aspects of technology operations, information management, and security. He will lead the technology strategy at Systems With Intelligence while collaborating closely with customers as they invest in new solutions and modernize critical infrastructure.

“Brad joins our team at a time of unparalleled industry transformation,” said Angelo Rizzo, President and Chief Executive Officer at Systems With Intelligence. “His insights into emerging technologies and industrial automation will enable our customers to implement the right solutions that optimize operations and maintenance, reduce downtime, and improve safety.”

“Joining Systems With Intelligence during this critical period of technological change is an exciting opportunity,” said Brad. “Having seen firsthand the challenges of maintaining high-value industrial assets, I recognize the potential for companies that effectively utilize thermal & visual sensors for

continuous monitoring and asset management to drive significant improvements to their business operations.”

The strategic appointment adds to the strength and domain expertise of the executive team as the company achieves rapid growth. Systems With Intelligence was recently recognized as part of the 2023 Deloitte Technology Fast 50™ program as one of Canada’s fastest-growing technology companies.

Brad’s focus on driving business outcomes, delivering continuous process improvement, and increasing output through technology furthers the company’s commitment to expansion into new global markets and segments.

Prior to joining Systems With Intelligence, Brad held executive roles at Hydro One, including as the CIO, Vice President - Distribution, and Vice President - Transmission & Stations. He previously worked as a consultant in the systems integration industry and brings deep technology expertise across physical and cyber security, Information Technology, business process optimization, governance, digital innovation, and application modernization.

About Systems With Intelligence Inc.

Systems With Intelligence Inc. (SWI) is a global provider of Touchless™ Monitoring Solutions for electric utility applications. SWI systems collect and analyze the data that allows utilities to increase safety and reliability while reducing operating costs. Coupling thermal monitoring and visual imaging technology with advanced analytic algorithms, SWI solutions automate remote site monitoring.

Systems With Intelligence products are engineered to operate in the harshest environments and withstand high levels of electromagnetic interference, static discharge, and voltage surges found in industrial applications to ensure uninterrupted operation. Providing a monitoring system that operates reliably and connects seamlessly allows customers to remain focused on their operations.
