

FOR IMMEDIATE RELEASE

Systems With Intelligence Acquires Enertics Inc. - Strengthening AI-Driven Asset Health

Monitoring Capabilities

Mississauga, ON – March 24, 2025 –Systems With Intelligence (SWI), a global leader in Touchless™

Monitoring Solutions for industrial applications, has announced the acquisition of Enertics Inc., a technology-driven company specializing in AI-powered asset health monitoring. Based in Milton, Ontario, Enertics brings cutting-edge Industrial IoT (IIoT) solutions, including advanced sensing, connectivity, and AI-driven data analytics, to enhance operational efficiency, reliability, and predictive maintenance.

“We are thrilled to welcome the Enertics team to Systems With Intelligence,” said Angelo Rizzo, President and CEO of SWI. “Enertics’ expertise in AI-driven diagnostics and predictive analytics aligns perfectly with our vision of providing industry-leading remote monitoring solutions. This acquisition allows us to strengthen our product offerings and continue driving innovation in asset monitoring for electric utilities and industrial applications.”

Enertics’ proprietary solutions, including the eM Saver hardware and eM AISuite software platform, offer a comprehensive approach to real-time asset health monitoring, enabling rapid deployment for both brownfield and greenfield applications. These technologies seamlessly integrate with SWI’s existing Touchless™ Monitoring solutions, furthering the company’s ability to deliver cutting-edge, utility-grade monitoring and automation solutions.

“We are excited to join forces with Systems With Intelligence,” said Bobby Sagoo, CEO of Enertics Inc. “SWI’s reputation in remote monitoring solutions combined with our AI-powered predictive analytics will create a powerful synergy, enabling our customers to maximize asset performance and reduce operational risks. Together, we are poised to lead the next generation of industrial monitoring technology.”

Enertics Inc. is a privately held company focused on revolutionizing industrial asset monitoring through AI and IoT-driven solutions. Its vision is to lead the industry in innovative technologies that enhance reliability, safety, and efficiency across various sectors, including electric utilities and industrial automation.

Quick Facts

- Systems With Intelligence was founded in 2009
- Systems With Intelligence Touchless™ monitoring systems are installed in over 100 utilities worldwide
- Systems With Intelligence senior management team has over 100 years of collective experience in utility asset monitoring and communications technologies

About Systems With Intelligence Inc.

Systems With Intelligence Inc. (SWI) is a global provider of Touchless™ Monitoring Solutions for electric utility applications with 130+ clients worldwide. SWI systems collect and analyze the data that allows utilities to increase safety and reliability while reducing operating costs. Coupling thermal monitoring and visual imaging technology with advanced analytic algorithms, SWI solutions automate remote site monitoring.

Systems With Intelligence products are engineered to operate in the harshest environments, and withstand high levels of electromagnetic interference, static discharge and voltage surges found in

industrial applications, to ensure uninterrupted operation. Providing a monitoring system that operates reliably and connects seamlessly allows customers to remain focused on their operations.
